THEO. P. HAUGHRY, Pres't. E. E. REXFORD, Cash

CONDITION OF THE MARKETS

With Very Light Trading Wheat Bounds Upward and Regains Lost Ground.

Corn Follows Suit, with a Good Demand from "Shorts"-Oats Steadier-Slightly Better Prices for Hog Products.

MONEY, STOCKS AND BONDS.

"Bears" Have a Lively Day and Fix Lower Prices All Around. NEW YORK, Dec. 28.-Money on call was tight, ranging from 4@10 per cent., the last loan being made at 4 per cent., closing offered at 3 per cent.

Prime mercantile paper, 534@712 per cent. Sterling exchange quiet and weak at \$4.80 for sixty-day bills and \$4.834 for de-

The total sales of stocks to-day were 116,946 shares, including the following: Atchison, 2,700; Delaware, Lackawanna & Western, 14,400; Denver, Texas & Fort Worth, 2,710; Erie, 4,420; Lake Shore, 3,930; Louisville & Nashville, 2,556; Missouri Pacific, 8,100; Northwestern, 1,700; North ern Pacific preferred, 2,000; Pacific Mail, 3,058; Reading, 18,150; Richmond & West Point, 7,791; St. Paul, 5,110; Union Pacific,

The stock market to-day unexpectedly showed more animation than during the showed more animation than during the same hours on any previous day this week, but the increased activity was had at the expense of values, the "bears" pressing the active stocks for sale throughout the session. This pressure was specially severe against the coalers, the reports in regard to the coal trade being particularly discouraging. but the impression made u those stocks was not so great as upon some of the others where a smaller amount of stock had to be sold to make a decline. Sugar Refineries, Missouri Pacific, St. Paul and Louisville & Nashville were all conspicuously weak, while there was not a strong spot to be found in the list. There was also some attempt to get Erie down, and the stock sold at its lowest price for months, the attack being accompanied by the old story of a new bond issue. The monetary situation received special attention at the hands of the "bears," and the most pessimistic utterances were spread through the streets in this regard, pecially as far as next week is concerned. For the time being the general expectation is to see a marked decline during the ensuing week. The opening was rather heavy, and first prices were generally from 1s to 3s per cent, lower than last evening's figures, and the early dealings were marked by special pressure upon Sugar, Union Pacific, St. Paul and Wisconsin Central. There was a let-up toward 11 o'clock, but no There was a let-up toward 11 o'clock, but no recovery, and after that time the attack was renewed with vigor, and Lackawanna. Reading, Louisville & Nashville and some others felt the brunt of the pressure. The decline continued without interruption until the close of business, which was fairly active and weak at the lowest prices of the session. The list is invariably lower, and sugar is down 15s; Louisville & Nashville, Missouri Pacific and St. Paul 14 per cent. each, and Reading and Chicago Gas Trust

1 per cent. each.

Kailroad bonds were quiet, and sympathized closely with the decline in stocks, though the movement in the downward direction was not so pronounced as in the stock market. The sales of all issues reached \$420,000, which was well and widely distributed. Internationalsixes certificates lost 214, at 73. The sales of bonds for the week aggregated \$4,491,000 against \$7,262,000

Government bonds were dull and firm. State bonds were neglected. Closing

TRADING AT CHICAGO. Wheat and Corn Regain Some of Their Lost

Values on Light Trading. CHICAGO, Dec. 28.—The volume of trading in wheat was light, and, while prices were generally kept within the range of yesterday, the closing was see higher. There were no special features to note, and there was nothing special in the character of the trading. The opening was a trifle stronger than yesterday's closing, and prices advanced 12c, later eased off 14@3sc, then ruled stronger. Cable advices generally

small decrease being probable. A moderate trade was transacted in corn, and the feeling was somewhat firmer, trading being at slightly higher prices. There were no new features presented, and values were governed to a great extent by the local influences. Offerings were not as heavy as on several days past, while a good demand existed from "shorts," under which the market ruled firm. A prominent local trader was credited with selling January and February and buying May, June and July. The market opened at about yesterday's closing prices, was firm and gradually advanced \(^{1}4\omega^{3}\sc,\) eased off a little and closed \(^{1}8\omega^{1}4\omega\) better than yesterday. Oats were steadier, but with a lighter volume of business. There was moderate selling by parties who bought yesterday and also a fair demand to cover "shorts," and prices were bid up \(^{1}8\omega^{1}2\omega\). Trading the last hour was light and an easier feeling prevailed. The market for pork was rather quiet, but the feeling was steady, with prices a little more fayorable to sellers. Rather more steadiness prevailed in lard, but trading was moderate and prices steady. In short ribs trading and prices steady. In short ribs trading was only fairly active. Early prices were

Two car-loads of hogs were shipped to New York to-

day.
Sheep—Receipts, 2,000; shipments, 2,000.
The market was slow at unchanged prices.

INDIANAPOLIS MARKETS. Trade Quiet, with No Important Fluctuations

Indianapolis, Dec. 28. To-day closes a week in which trade was quiet, so far as the wholesale markets were concerned, which is usually the case the last week in December and in the year as well. In prices there has been no important fluctuations during the week. The produce markets were fairly active on Saturday, fruits of the season and poultry meeting with considerable sale; but prices on quoted quiet and steady markets, and some private cables reported a stronger feeling. Advices from the Northwest report roads in good condition and farmers' deliveries very light. Not much change is expected in the visible supply. either a small increase or quoted quiet and steady markets, and some private cables reported a stronger feeling. Advices from the Northwest report roads in good condition and farmers' deliveries very light. Not much change is expected in the visible supply, either a small increase or local point and January, 76c; May, 83½c; on track, 80c. No. 1 North-form for market is looked for next week. Choice apples and choice on track, 78½c. No. 2 Northern, December and January, 76c; May, 81½c; on track, 78½c. No. 2 Northern, December and January, 76c; May, 81½c; on track, 74½c and further break in the market is looked for next week. Choice apples and choice oranges are in good demand at the best quotations. The present dull trade is looked for until the traveling salesmen start out on the first of the year. Most of them are now taking their annual rest. The flour market is more active than a few days cans in 100-b cases, 7½c; in one-half barrels, 7½c; in one-half barrels, 7½c; in 20-b cans in 80-b poultry, butter and eggs are weak.

ago, but prices have not improved materially. The same remarks will apply to the hide market. The iron market and that of tinners' supplies is very firm, and a further advance in prices indicated. Other markets are featureless.

In some respects it has been an off week in the local grain markets. The attendance on 'Change has been small and the bidding tame, yet both the wheat and oats markets are firmer and a shade higher than on Monday. Millers are buying some wheat and local jobbers are taking most of the arrivals of oats. In corn but little is doing. The local demand is light, and there are but few interior orders. In the seaboard demand there is some activity. Track bids to-day ruled as follows:

Wheat—No. 2 red, 76%c; No. 3 red, 71@74c; rejected, 65@68c; unmerchantable, 50@55c.
Corn—No. 2 white, 32@33c; No. 3 white, 29½@30c; No. 4 white, 27@28c; No. 2 yellow, 30@30½c; No. 3 yellow, 29c; No. 2 mixed, 30c; No. 3 mixed, 29c; No. 4 mixed, 27@28c.
Oats—No. 2 white, 24c; No. 3 white, 22c; No. 2 mixed, 21½c; rejected, 20c; unmerchantable,

Bran—Local dealers are bidding \$8.25; shippers are bidding \$8.

Hay—Timothy, choice, \$11; No. 1, \$10.25

210.35; No. 2, \$828.25. Prairie—No. 1, \$6.502

7; Iowa, \$7.5028.

Jobbing-Trade Price List.

Keeping Farm Accounts.

New York Independent. Every man who runs a farm should keep a record of his transactions and operations.

This will not only show how he stands at the end of the year—whether he has made or lost money—but be valuable as a guide and for future reference. There are many cogent reasons why the farmer should be as careful in this matter as is the merchant, manufacturer or any other man of business.
The farmer who keeps an account of his dealings and practical doings, not only knows the exact state of his financial affairs, but is fully advised as to the condition and value of his crops, live stock and farm implements and machinery. By carefully recording the cost of each crop and the receipts therefrom, the cultivator is enabled to readily decide as to the profit or enabled to readily decide as to the profit loss, and also to arrive at some definite where judgment or management—a matter which may prove of special benefit to those who are guided by the lamp of experience. While we have not space to fully discuss this vital question now, we urge its importance upon every would-be prosperous husbandman. It is a great economizer and factor of success, this keeping farm accounts, and its necessity is too apparent to require argument. For example, the farmer who keeps a record of his transactions can at the close of the

year easily take an inventory of his farm stock and implements, produce on hand, etc., and estimate their value, and thus knowing his outgoes and incomes, and what he has on hand, be posted as to his position and prospects. December is the time to be-gin taking an inventory, and also to practice in keeping accounts (if you do not already keep them), so as to know how you stand with the world, and be prepared to turn over a new leaf in the matter of farm book-keeping on the 1st of January.

Leanness in Jerseys.

Jerseys are, naturally, a hardy race of cattle, and consume large quantities of food proportionate to their size, and most of it is diverted in the direction from which the greatest dairy product is derived—into rich milk and cream. They waste none of it in beautifying and finishing the form and filling up the bollows and angles surrounding the hip bones, and over the ribs with flesh and fat.

The lean condition of the Jersey cow when she is giving full flow of milk is her highest recommendation as a profitable dairy animal, and it does not follow, be-cause of this leanness, that she is lacking in thrift, and that she is "hard to keep," or that her appetite is delicate, but it is a symbol not to be misunderstood, that her organization is doing thoroughly the work that nature designed for her, and no matter how much food she may consume, or how rich, it is all utilized in legitimate dairy channels.

Farm Notes.

There is no reason why a good cow should not be kept in as clean condition as a good horse, even by the application of the currycomb and brush.

It is said of corn that it is one of the best foods for fattening bogs, but is starvation diet to pigs. The reason is that while corn contains the elements that produce fat, it s deficient in mineral matter and other elements essential to growth.

The vast amount of wealth carried away by the sewers of great cities is enormous. It is greater than the wealth taken from the sea. When some system is devised by which all this loss is prevented, the crops will be grown at less cost and the prices of fertilizers greatly reduced.

Instead of washing the sheep, thus ren-dering the animals liable to colds and disease, it is now proposed, in some sections where sheep are raised in large numbers, to establish wool-scouring mills, to which the wool may be carried and washed before baling. It is a move in the right direction. animal, nor does it indicate quality, but it enables the breeder to know something of the family from which the animal descended, and permits him to better understand how to develop it and what may be expected. In all families there are some superior to others, and the pedigree is a guide to breeding.

The Most Complete Newspaper in all Departments in the State of Indiana.

No newspaper in the West is more widely or more favorably known than the Indianapolis Journal, By the display of enterprise and strict attention to the wants of the reading public, during the great campaign of 1888, it has taken a leading position among the most prominent journals of the country, and is certainly among the best. Among the newspapers of the State it is pre-eminently the best, and Indiana readers can nowhere else find what they want in the way of State and local news. It circulates largely in every county in Indiana, and has correspondents in every town and village of importance. Its market reports are prepared with the greatest care possible, and no pains or expense are spared to make them accurate and absolutely reliable. It is the only newspaper in the State owning and publishing all the news furnished by the two great press associations (the Western Associated Press and the United Press). in addition to which it furnishes an abundance of special service from all the principal cities of the country. It has been, and will in future be, the aim of the publishers to make the Indianap OLIS JOURNAL a perfect and complete newspaper, deficient in no department or particular. The paper challenges comparison with any of its contempo-

No Indiana reader, certainly no Indiana Republican, should be without the Journal, While it is thoroughly and 3,500.00 | soundly Republican in politics, devoted to the interests of the Republican party, the Journal will not allow its news to be colored by partisan bias, but will give the news of the day without fear or

Owing to the prominence of Indiana in the national administration, the Jour-NAL gives particular attention to Washington news, which will be given far more completely than ever before. For this reason, if for no other, no Indiana reader can afford to be without it for the next four years.

In addition to its new features, the Journal regales its readers with the productions of some of the best known llterary men and women of the day. Many of the most celebrated magazine writers and authors are contributors to itsliterary columns, making it apaper for he household and home circle. Special arrangements have been made for featedition, and can be subscribed for and received exclusive of the JOURNAL.

THE INDIANA STATE JOURNAL
